

# Tambour Door Kits for 4-Post Shelving

FINALLY, A **QUALITY** TAMBOUR DOOR SOLUTION!

## Economical Add-on Security for 4-post Shelving

The rigid double-wall door rolls up effortlessly, with torsion spring assist. The door rolls up into an add-on roll box, mounted on top of your existing shelving.

No more hinged doors protruding into the aisle.

You will be proud of the finished appearance, even in front office applications.

## *“Perfect for Addressing HIPAA Security Requirements”*

Easy installation – adds on to most brands of 4-post shelving.

Optional waist high ergo lock

Low profile cam lock standard

Lock up one section, or an entire range!

**VisuFlex Tambour Door Kits integrate so well, it's hard to tell where the shelving ends and the door system begins!**

**VisuFlex**  
by Russ Bassett

Door rolls up into top box — saves space!

Mounts easily onto your existing shelving

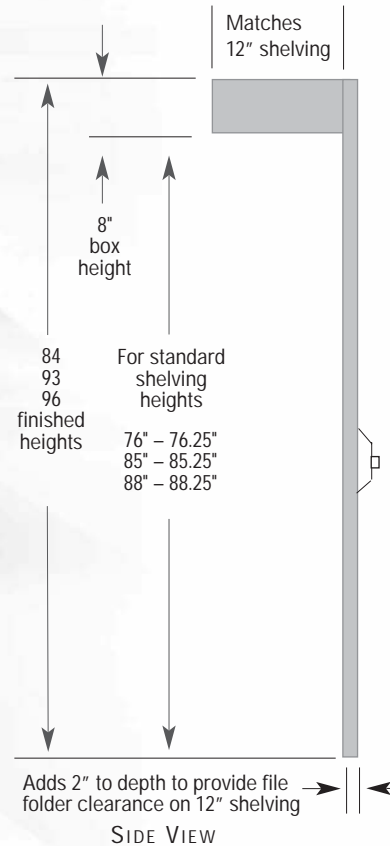

Sized to match standard 4-post shelving

Waist-high full width handle

**Compare!**

Available in 3 widths: 36", 42" and 48".

Some competitors' units are only available in 36"

Optional ergo lock engages into an oversize metal strike for perfect alignment every time. Specify "-EL".

Patent applied for. **Compare!**

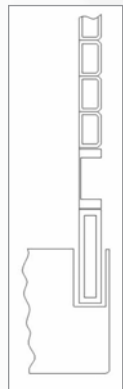

Some competitors' units just lock into the plastic door

Double wall honeycomb door construction provides a rigid precision door

**Compare!**

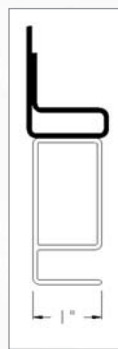

Most competitors' units are only single wall, which is not as rigid

Door bottom engages in bottom channel to prevent tampering

**Compare!**

Some competitors' units have no bottom cross channel and you can reach in and lift the door up to 6"

Door track is only 1" wide! Does not encroach into filing area.

**Compare!**

Some competitors' units have door tracks that are over 2" wide!

*"The attention to detail and popular colors provide a finished and integrated appearance – not a bolt-on afterthought!"*

Standard cam lock protrudes only 1/2", which may be important on mobile applications
